## 👤 PROFILE

### OBJECTIVE

MERN stack developer with a strong focus on frontend development, skilled in React, JavaScript, HTML, and CSS. Seeking a Frontend Developer Internship to apply my knowledge of responsive UI design and modern web technologies in building user-friendly applications. Eager to contribute creative solutions, collaborate in a team environment, and grow into a professional frontend engineer through hands-on industry experience.

### PROFESSIONAL SUMMARY

- MERN stack developer with a strong passion for **frontend development** and creating user-friendly interfaces.
- Skilled in **React, JavaScript, HTML, and CSS**, with foundational knowledge of **Node.js, Express, and MongoDB**.
- Experienced in building **small projects and responsive designs** that improve user experience.
- Eager to **apply technical skills** and gain hands-on industry experience through a Frontend Developer Internship.
- Committed to **continuous learning**, teamwork, and contributing creativity to real-world projects.
- Experienced in User Interface Design.

## 🔑 INTERESTS

### READING

"Books are a uniquely portable magic." - Stephen King

This quote captures the transformative and transportive power of books, emphasizing how they can open up new worlds and ideas to readers.

MONOGODB, EXPRESS, REACT & NODEJS

## LANGUAGES

Yoruba

English

## PROJECTS

### LANTHY [↗](#)

FOOD APP

UI/UX design app interface

### Blog Website development

### CRUD APP

**CRUD** stands for:

- Create : Add new data (e.g., create a new user or product)
- Read : View or retrieve data (e.g., see a list of users/products)
- Update : Modify existing data (e.g., edit a user's name)
- Delete : Remove data (e.g., delete a product from the list)

A **CRUD** app is any application that performs these four basic operations on a database. Almost every web/app project (like Instagram, e-commerce sites, blogs) is built on CRUD.
